

Starfront 4 Tutorial Video Clips now available!

Starfront Tutorial videos have been developed to assist both new and experienced users with the fundamentals and best practices for using Crealco's new Starfront 4 Design, Estimating and Fabrication software. The Starfront tutorial video clips have been divided into the following, for easy reference:

- Introduction
- Section 1 - New User Interface (Overview)
- Section 2 - File Maintenance
- Section 3 - Program Defaults
- Section 4 - Design Screen
- Section 5 - Costing
- Section 6 - Reports
- Section 7 - Documentation and tools

The video clips are available on Starfront under "Other Documentation". For those who do not have Starfront 4 yet, we have loaded the "introduction" and "overview" clips onto Youtube and the Crealco website. If you do not have the NEW revolutionary Starfront 4 yet, you are missing out on a new world of fabrication flexibility and user convenience!!! Get a disc at your Stockist and register at www.starfront.co.za

We hope you find these tools useful.
