Aluminium security barrier for windows and doors

Wispeco Aluminium is excited to announce its latest new product, the **Crealco Guardian**.

The Guardian security barrier is a robust yet aesthetically pleasing system offering safety and security in the home and business space.

The Guardian's aluminium and components are available from Wispeco appointed Crealco Stockists nationwide, to fabricate custom sizes. To enable fabricators to make standard sizes with least cost, pre-machined upright profiles is also available.

For more information visit the Crealco website at www.crealco.co.za

Remember that the FPD declaration offers compliance and durability assurance on Crealco products supplied. (www.crealco-fpd.co.za)
